

Brighten up your look

GETTY

Improve your vision – and style – for less with the latest offer from Boots Opticians

Just like a good haircut, the right pair of glasses can take years off your looks, but when's the last time you updated your frames?

Changes in face shape, hair style and colour, and skin tone may mean that what suited you 10 years ago no longer looks good. If your hair colour has become lighter, you may need a softer coloured frame.

If your face has become more angular, you may need a more rounded shape, which can soften sharp lines. Strong rectangular frames, by contrast, can help to balance a longer face shape.

Glasses are a reflection of your personality and can instantly add style, elegance and an air of confidence. If you've become used to one particular style, you may need an objective view to help you try something different. At Boots Opticians, there are hundreds of styles to choose from, including designer brands such as Givenchy, DKNY and Prada*, and staff are

trained in how to find the right style for individual customers.

Advances in both frame and lens technology mean you can match your glasses to your lifestyle.

For an active hobby, choose a pair with a lightweight frame and lenses or, if you are a computer user, consider lenses with an anti-reflective coating that helps to reduce screen glare.

Boots Opticians is committed to helping women feel inspired in creating different looks for themselves.

So, if you like your glasses to match your mood or outfit you can take

advantage of the two complete pairs of glasses from only £79 offer at Boots Opticians.** Plus, with Boots Opticians and D&A The Opticians now offering a £5 eye test, there's no better time to get your sight and general eye health tested, too.

* Selected practices only.

** Terms and conditions apply. Two complete glasses from £79 offer available in Boots Opticians only.

† Call anytime between 8.30am and 7pm (Mon-Fri) and 8.45am-5pm, Sat and Sun. We may record your call to help us maintain high standards of service to you.

£5 eye test
